Patient Account Services, Inc Revenue Cycle Management

Whether you need help submitting clean claims, managing denials, or pursuing unpaid claims, Patient Account Services, Inc can help you get paid the right amount as quickly as possible. Our highly trained and experienced account managers are organized to provide personalized service and comprehensive support by knowing your practice inside and out.

Patient Account Services, Inc can help you improve your practice's revenue cycle by letting us manage claims while you focus on what you do best: manage patients. Patient Account Services, Inc can help you improve your practice's revenue cycle through:

- Best-in-class rules-based technology
- Optimization of front desk processes to eliminate redundancies
- Senior A/R team focused on maximizing your revenue
- Constant reporting of metrics to assess all internal and external performance
- Dedicated account management team

Targeted revenue cycle management for your business needs

We give you the reports you need to manage, enhance, and continually improve A/R. Using EDI, we:

- Process clear and concise billing statements
- Handle electronic claims submission, claims remittances, and insurance eligibility
- Help patients settle their financial obligation to your practice in a timely manner

Leave the claims workflow to us

When you engage Patient Account Services, Inc, your staff usually handles scheduling, eligibility, referrals, co-pays, registration, and visit capture, and we take it from there. Your assigned account management team will:

- Monitor all workflow associated with charge verification and electronic claims submission
- Post payments, manage denials, and persistently pursue unpaid claims

Personalized service

With Patient Account Services, Inc, your facility will benefit from responsive, personalized service from account managers who are familiar with your unique requirements and who can help you uncover the information you need to enhance and improve your practice.

We offer a range of revenue cycle management capabilities that benefit your practice, including:

- Real-time insurance eligibility
- Electronic claims submission
- Rules-based protocols and automatic follow-up

- ✍ Quality Assurance
- ✍ Payment Verification
- ✍ Denial analysis

• What We Do…

- Process all primary and secondary insurance claims -- .filing most within 24 hours.

- Post all insurance and patient payments to accounts

- Follow-up/Appeal all denied or unpaid insurance claims.

- Send statements to patients on a weekly basis.

- Provide regular and relevant practice financial reports.

- Include remote use of our web-based CareTracker Practice Management software on a real-time basis, replacing your in-office software **at no additional expense**.

- Include Electronic Health Records (EHR) & ePrescribing capability **at no additional expense**.

• What You Can Expect…

- Increase your revenue by submitting clean claims coded correctly and by effective follow-up and collection procedures.
  - **Most providers experience a 10 – 30% revenue increase - some even more!**
- Produce faster reimbursements by processing claims more accurately and submitting claims electronically.
  - **Claims are typically submitted to third party payers within 24 hours.**
  - **Increase pay-at-first pass rates up to 97 percent of submitted claims.**
  - **Reduce Days in Accounts Receivable by up to 50% - PAS averages less than 35 days.**
  - **Our average practice's over 90 days total accounts receivable is under 5%.**
  - **Net Collection Rates approaching 100%**
- Save the practice considerable money.
  - **Typical savings range from 20-50% over in-house costs of processing claims.**
- Provide financial consistency.
  - **No more absenteeism, sudden staff changes or poorly trained personnel.**
